The battery bank has a silicone-like button to check the battery, which has three lights to indicate how much charge is left. After some simple math, one light indicates 0--2,000, two means 2,000--4,000, and three means 4,000--6,000 mAh. It isn''t a perfect science, and those readings aren''t very accurate; however, it''s a handy feature. ...
