Ag energies Spain

What are Spain's energy and climate plans?
These plans are closely linked under Spain's Strategic Energy and Climate Framework. The Climate Change and Energy Transition Law entered into force in May 2021 with the long-term objective of climate neutrality and decarbonization of the economy by 2050 with a 100% renewable electricity system.

Could Bess be a catalyst for batteries in Spain?
BESS stands to benefit from the current market dynamics, capitalizing on the opportunity to store energy during low-price periods and release it when prices peak. This arbitrage revenue could redefine the investment landscape for storage in Spain, turning a significant solar challenge into a catalyst for batteries.

Can Spain and Portugal lead the energy transition in Europe?
A McKinsey &Co report shows that Spain and Portugal have an "unprecedented opportunity" to lead the energy transition in Europe. Jose Pimenta da Gama,Senior Partner at McKinsey,says: "With Europe's energy transition in full swing,there is a real opportunity for the Iberian Peninsula to lead it.
