SolaSync by Ampinity Energy, I spearhead our efforts in software and application development, focusing on innovating in the realms of IoT and telemetry devices. My role involves driving the technological vision of the company, ensuring that our offerings in on-demand green energy ...

Hydrogen has the potential to transform the global energy landscape, but its success hinges on a customer-first approach. Companies and governments must take a cue from Steve Jobs" wisdom and start with the customer experience, working backward to ensure that hydrogen technology is accessible, reliable, and aligned with real-world needs.
