Austria fisonic energy solutions

Fisonic Energy Solutions . Location Schenectady, New York, United States; Regions East Coast, Northeastern US; Gender Male; LinkedIn View on LinkedIn ; Ed Pheil is the Chief Technical Officer, Founder, and a Technical Advisor at Fisonic ...

Fisonic Energy Solutions LLC is an energy service company that utilizes new technology to provide clean and efficient energy solutions across a bro ad spectrum of industries and applications including, waste heat recovery, commercial heating, and power generation. All of our systems are manufactured in New York and designed to deliver maximum environmental and ...

objective, reliable, energy-related solutions delivered by accessible,dedicated professionals. Our Mission: Advance innovative energy solutions in ways that improve New York"s economy and environment. Our Vision: Serve as a catalyst--advancing energy innovation and technology, transforming New York"s economy, and empowering people to choose

Fisonic waste-heat recovery systems generate clean electric power from an array of sources including; district-steam condensate, steam-traps, industrial processes, geothermal and ...

Fisonic Energy Solutions LLC is an energy service company that utilizes new technology to provide clean and efficient energy solutions across a broad spectrum of industries and applications including, waste heat recovery, commercial heating, and power generation. All of our systems are manufactured in New York and designed to deliver maximum ...

A Portfolio of Energy Solutions ... We propose the Fisonic Energy Solution that will best meet your needs and custom engineer the system according to the specifics of your facility. See Our Technology: Installation and Testing. We install according to a pre-approved plan. All materials arrive pre-sized and ready for connection.

Fisonic Energy Solutions is actively using 8 technologies for its website, according to BuiltWith. These include SPF, Microsoft Exchange Online, and Office 365 Mail . UNLOCK PREMIUM DATA WITH DATABOOST

Fisonic"s unique CHP systems generate electric power as a by-product of providing heat. Our design integrates with a variety of sources, including district-steam, traditional boilers, and ...

oFisonic system recoversall the energy in the waste condensate and adding just a fraction of the steam required by its controller to meet the building needs. Exhaust Air Energy Recovery o USCleanAir Energy recovery system on fresh air intake/building exhaust ducts. This allows preheating outside air in winter (cooling in summer).

What are the benefits of Fisonic Devices? Energy Savings: Reduce the energy cost to existing and new businesses. Estimated and actual FPD installed buildings systems, demonstrate that use of FPDs will reduce their annual electric consumption by about 50% and the steam consumption by about 16-40% when compared with the existing systems ...

Changing energy from the ground up Fisonic Energy Solutions is an energy service company that utilizes new technology to provide clean and efficient energy solutions across a broad spectrum of industries and applications including; commercial heating, district energy, solar thermal, waste heat to power and micro-grid power generation.

Fisonic Energy Solutions LLC is an energy service company that utilizes new technology to provide clean and efficient energy solutions across a broad spectrum of industries and applications including, waste heat recovery, ...

Fisonic Energy Solutions LLC is an energy service company that utilizes new technology to provide clean and efficient energy solutions across a broad spectrum of industries and ...

Fisonic Technology . Fisonic technology harnesses the natural phenomenon of two-phase flow. At the core of the technology is a hyper-efficient heat exchanger that produces thrust. Fisonic devices are heat exchangers, pumps and mixers with patented internal geometry. They mix steam and water by direct contact without consumption of mechanical ...

The Fisonic Devices (FDs) are supersonic, condensing heat pumps with a patented internal geometry which causes steam and water to mix and accelerate, converting a minute fraction of fluid"s thermal energy to physical trust (pump head) with the outlet pressure higher than the pressure of the working medium at the inlet of the device.

Fisonic Devices (FDs) are heat exchangers, pumps and mixers with patented optimized internal geometry. The original theory of Fisonic devices was developed by Professor ... converts the energy to the discharge pressure with as little loss as possible. The JA transforms the kinetic energy of the working stream to the injected stream by direct ...
