Bridgetown, Barbados, March 6th, 2023 - Pavana Energy Ltd., a renewable energy company, pioneering the climate resilient development of clean energy projects in the Caribbean, announce their first operational wind farm at Ashford Dairy in Barbados.

Barbados once had the second highest number of windmills per square mile in the world, second only to Holland which is known as the world"s famous "Windmill Country". These old windmills can be seen dotted throughout our countryside. Local architects have designed and converted some of them into beautiful homes, others stand alone, while some ...

Although Barbados has no utility-scale wind operating at present, in the 1980s the island did experiment with large-scale wind, installing a 200 kW Howden wind turbine in the north of the island. However, the project was short-lived with limited operation and safety concerns leading to it being abandoned 4 years after commission.

Electricity in Barbados could be up and running the very next day after a storm with wind turbine energy. So said developers of Pavana Energy Limited, the first company to be granted a licence to erect wind turbines here. ...
