Batrec industrie Equatorial Guinea

Who is batrec Industrie AG?
Batrec Industrie AG was founded in 1989. The Company's line of business includes the recovering of nonferrous metals and alloys from new and used scraps.

How did batrec Industrie start?
The company's operations began in 1989 with the recycling of household batteries. At the time these contained considerable quantities of mercury,and as such Batrec Industrie acquired significant knowledge in handling this material.

Why did batrec Industrie build a new catalyst recycling plant?
In order to accommodate the clear demand in the market for such services,at the end of 2011 Batrec Industrie built a new catalyst recycling plant,which is currently running two furnace lines handling 1000 tonnes of catalyst and 3000 tonnes of active carbon.
