Battery asset management Nigeria

Does Nigeria need a large-scale battery storage system?
However,the use case for large-scale battery storage is glaringly obviousin Nigeria. From food preservation to local clinics,and rural electrification and small businesses,power storage systems should factor significantly in government's policy plans.

How to reduce lifecycle cost of battery energy storage systems?
In the presented study, a novel battery asset management methodology has been developed for battery energy storage systems, in which battery cycle life prognosis is integrated with parallel asset management to reduce lifecycle cost of the battery energy storage systems.

Are there battery manufacturers in Nigeria?
There are no local battery manufacturersand systems procured from abroad have varying levels of quality and cost. Further,developers have experienced challenges importing systems into Nigeria,with customs codes often inconsistently applied to renewable and off-grid technologies.

How to ensure quality of batteries in Nigeria?
Global Standards: Currently,there are no official standards for the quality assurance of batteries in Nigeria. However,there is a need to ensure consistency of quality of batteries by establishing independent and globally accepted standards,similar to that which exists for off-grid lighting applications.

Why are lead-acid batteries so popular in Nigeria?
Lead-acid batteries are prevalent in Nigeria used in cars,home inverter solutions,and most renewable energy projectsincluding home system solutions. The adoption of Lithium-ion batteries is only just gaining ground but it is still expensive even if it delivers superior value.

Is NESREA implementing a hazard management policy for waste batteries in Nigeria?
Although current policy frameworks empower regulatory agencies like NESREA to monitor and enforce the guidelines specific to managing waste batteries in Nigeria, the lack of adequate resources, data and public awareness on the potential hazards of improper battery disposal is a major challenge to the effective implementation of these policies.
