Belgium hive energy

Why do you need a bee hive?

If energy becomes more expensive,the BEE HIVE will allow you to spread your consumption,or to discharge and inject power to the grid if you have a production facility or a battery. Thanks to the BEE HIVE,you unlock value from dynamic energy prices without constantly monitoring everything yourself.

Who is bee energy?

Subscribe to our newsletter! BEE is a 100% Belgian energy companythat develops,finances,builds and operates energy projects.

What does hive do?

At Hive,we are creating transformational change for a cleaner future. In our mission to save the planet,we develop world-class clean energy projects and smart solutions across the circular economy. Our belief is that renewable energy generation is the most important thing that is going to happen to our planet over the next 50 years.

What is a bee hive?

The BEE HIVE combines BEE's unique knowledge and expertise with data from your digital meter(s). It welcomes various smarttech platforms,enabling the collision of all that data to continuously unlock the value in price fluctuations for your company. The result: you always consume,inject,and charge when you should and never when you shouldn't.
