About us. Mashriq Energy is a quality-oriented international company providing turnkey solar photovoltaic solutions. We are on a mission to accelerate the transition to renewable energy by providing professional energy consulting services, industrial (EPC) services, and increasing public energy literacy and awareness.

With the increasingly dropping costs of energy storage and the rising trend and need to be completely energy independent, off-grid systems are becoming increasingly attractive in places with an unreliable grid. For the first time in history, it is now possible to generate and consume free energy without relying on fossil fuels.
