Brazil mac energy 3000

How many AW3000 wind turbines are sold in Brazil?
With this contract,ACCIONA Windpower reaches 1,020 MWsold of its AW3000 wind turbine in Brazil,since it started marketing it in 2012. The model selected in this contract is the AW125/3000,which has a rotor diameter of 125 meters.

How much electricity does Brazil generate from fossil fuels?
Brazil generated 145,386 gigawatthours(GWh) of electricity from fossil fuels in the same year,accounting for 22% of total electricity generation. During periods of low water availability or high electricity demand,electricity from fossil fuels is frequently used to supplement hydroelectric power.

Why does Brazil use so much energy?
Brazil's energy usage has varied in recent years,in part due to droughts and environmental factors,and in part due to 99.5% of all homes becoming electrified.

Why does Brazil have less coal than other fossil fuels?
The share of coal among fossil fuels has decreased from 25% in 2011 to 18% in 2021,reflecting efforts to transition to cleaner energy sources.59 Brazil has a small number of oil-fired power plants that help to keep the electricity grid flexible and stable,accounting for 3.4% of total electricity generation.

Visually, I think it gets São Paulo vibe, it"s a rich town, the biggest in Brazil by far, but it still has its poor parts. I think the city is way more grey than tropical by the way, of course it has its green areas, but it"s not tropical paradise like some people think that the entirety of Brazil is.
