Jaza Energy, known for its innovative approach to clean energy access, will install solar-powered hubs, known as Jaza Hubs, at 250 IHS Nigeria sites in Nigeria. These hubs not only provide clean energy to help power the ...

The Jaza Hubs have an influence that goes beyond just supplying electricity. Serving as a one-stop shop for energy needs, each hub provides a crucial service to areas where dependable electricity has historically been scarce. Because Jaza Energy"s innovative business strategy employs local women to run the hubs, it promotes community development.

Jaza has employed over 267 women to deliver clean, sustainable energy to last-mile communities. By replacing kerosene and generators as a lighting source, Jaza has offset 74,812 metric tons of GHG emissions to date.
