Buy flow battery Bulgaria

Invinity has delivered a 0.4 MWh VS3 vanadium flow battery system to a commercial customer in Sofia, Bulgaria for a solar + storage microgrid project which will provide 24/7 low-carbon power. Find out more in the case study below.

With over 3000+ battery 100% cycles, you can use RIVER 2 almost every day for pretty much ten years. LFP battery chemistry doesn"t just offer long life. It"s more reliable, efficient and safe even in high temperatures.

A flow battery is essentially a rechargeable battery. Unlike other batteries, it consists of electrolytes that flow from electrochemical cells to tanks. The electrolytes can encompass different types of chemistries. Flow batteries currently provide 10-12 hours of energy storage, possibility reaching over 100 hours in the future.

Flow batteries offer a new freedom in the design of energy handling. The flow battery concept permits to adjust electrical power and stored energy capacity independently. This is advantageous because by adjusting power and capacity to the desired needs the costs of the storage system can be decreased.
