I work for a very legitimate solar company in Oregon and it"s common practice to get the customers power bills just so we can see how big of a solar system the customer may need. For example, if the customer wants to go 100% solar and they consume 14,000 kWh over the course of a year, we should build a solar system that can produce 14,000 kWh ...

i had at grement RDX power the they were going to pay oof the balance of my previos panel solar with sunnova with balance of $8000.00, end during the proses of istation of the new panels they ...
