By achieving lead-free soldering in the manufacturing process, the organization eliminates a harmful but common substance found in many solar production methods. By leading the...

The technology company OPES Solar Mobility has selected the location of its new solar factory. In the German town of Zwenkau, solar technology for vehicles such as trucks, motor homes and buses is produced on more than 12,000 square meters.

EDIT: Thanks all for advice and suggestions. I went with using the first good OPUS solution just to get the base location adjustment. The crew had decided it would be fine to just run the survey in autonomous mode instead of solving the site calibration at the time and checking in on controls. They did occupy controls but after checking in all ...
