Cristopia energy systems Yemen

What makes cristopia a leader in thermal energy storage?
Our leadership in Thermal Energy Storage is a result of over 20 years of continuous technological developmentbased on the latest production and management tools. Due to our skilled and dedicated staff,CRISTOPIA has developed a unique expertise in its field of activity.

Why should you choose cristopia Energy Systems (STL)?
The use of modern technologies permits quality control. The materials transfer fluid. The phase change materials used by CRISTOPIA Energy and abroad. This product development work has led to a very high reliability of the STL. The STL has been conceived for hydraulic applications. Please consult CRISTOPIA Energy Systems for any other application.

How long does cristopia energy systems warranty last?
CRISTOPIA Energy Systems GUARANTEE 1. CRISTOPIA Energy Systems warrants the STL energy storage manufacturing defects for a limited time under the following conditions. The guarantee time is five(5) years after receipt of the goods. This time will not Energy Systems. 2. STL components must be used normally,meaning in accordance with the

Is cristopia energy systems liable for damage?
CRISTOPIA Energy Systems shall not be liablefor any direct,for such damage is based upon warranty,contract,negligence or otherwise. money paid to CRISTOPIA Energy Systems for the particular item involved.

How many M3 can a cristopia STL tank hold?
its capacity from 1 m3 to several thousands of m3. The tank may be cylindrica or rectangular parallelepiped (concrete or steel).The cylindrical t nk may be installed inside,outside or underground. CRISTOPIA STL storage ofers a full range o integration possibilities inside available spaces.The filling

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

CIAT Group and its subsidiary Cristopia Energy Systems, which focuses on the design of thermal energy

storage systems and control and supervision systems, has launched an advanced thermal energy storage (TES) system in the UK. The system helps to reduce the load on the chiller and electrical power requirements by between 30 and 70 per cent for ...

The storage technology developed by the team of Vence under the brand Cristopia ("STL" ie. STorage Latent), is a solution which allows to manage important energy cooling needs for air ...

The new UFIDA Software Park contract is one more reference to be added to the 2,000 CRISTOPIA systems in operation worldwide, including Kempinski luftansa center in Beijing and the Hong Kong Asia World Expo. More than 5,000 MWh of electrical energy are saved every day thanks to CRISTOPIA equipment.

CRISTOPIA STL (Storage of Latent heat) technology is widely used in Europe, Asia and North America. It consists of nodules used to store the cooling energy produced by water chillers. The energy is primarily stored at night-time, when cooling demand is lower, and redelivered during the day when greater cooling capacity is needed.

La société CRISTOPIA ENERGY SYSTEMS est immatriculée au Registre du Commerce et des Sociétés de Grasse sous le numéro de SIREN 817 120 413.
