Croatia nextnorth energy group

Who is NextEnergy & Starlight?
Since 2007 the NextEnergy Grouphas developed over 100 utility-scale solar plants with an installed capacity in excess of 2GW,significantly contributing to global climate change mitigation. Starlight has been established to capture,consolidate and rapidly expand the Group's renewable energy project development experience and presence.

Who is NextEnergy group?
Since its inception,it has been active in the development,construction,and ownership of solar assetsacross multiple jurisdictions. NextEnergy Group operates via its three business units: NextEnergy Capital (Investment Management),WiseEnergy (Operating Asset Management) and Starlight (Asset Development).

What does NextEnergy do?
It initially targets and develops early-stage solar PV projects with a focus on key NextEnergy Group geographies where the team already has existing experience. Further plans include but are not limited to expansion into other jurisdictions and in energy storage, wind (both onshore and offshore) and green hydrogen projects.

What business units does NextEnergy group have?
NextEnergy Group operates via its three business units: NextEnergy Capital (Investment Management), WiseEnergy (Operating Asset Management) and Starlight (Asset Development). NextEnergy Capital is NextEnergy Solar Funds investment manager and advisor.

How does Starlight benefit from the NextEnergy group?
Starlight benefits from the NextEnergy Group's industry-leading ESG practices and quality assurance processes. Development projects mainly targets greenfield and brownfield sites and Starlight is keen to work alongside local developers in its new jurisdictions.
