What is Tata Power doing in Bhutan?
Tata Power has joined forces with Druk Green Power Corp. to develop 5,000 MW of clean energy capacityin Bhutan. This includes large-scale hydropower and solar projects aimed at supporting Bhutan's energy goals and regional integration.

How does Bhutan achieve a sustainable future?
Bhutan aims to achieve this goal by diversifying its energy portfoliobeyond traditional hydropower to include solar and geothermal energy while exploring innovative project structures and financing through strategic partnerships.

How many MW does Bhutan generate?
"Bhutan currently generates only 2,444 MW,about 7.5 percent of its potential. However,this agreement to develop 5,000 MW brings us closer to His Majesty's vision of generating 20,000 MW," he said.

Why should Bhutan invest in hydropower?
Hydropower remains a cornerstone of Bhutan's economy, and capitalising on this resource will not only meet the country's growing energy demands but also create green jobs and contribute to infrastructure development.
