DR Congo zpa smart energy

Who is ZPA smart energy?
We manufacture complex electrical engineering products with an innovative approach to modern technology. 70 years of supplying measuring and control equipment to the global power industry market, 70 years of development, 70 years of experience! All this is reflected in the quality of ZPA Smart Energy products. We keep moving onward!

How much electricity does the DR Congo produce?
In 2007,the DR Congo had a gross production of public and self-produced electricity of 8.3 TWh. The DR Congo imported 78 million kWh of electricity in 2007. The DR Congo is also an exporter of electric power.

How will Nuru empower 5 million Congolese people?
By delivering world-class renewable energy and connectivity services,Nuru aims to empower 5 million Congolese people,one connection at a time. Moving ahead,it will be important to strengthen the public sector and the government's capacity for cross-unit delivery in order to effectively finance renewable energy mini and metro-grids.

Is the Democratic Republic of the Congo an energy exporter?
One of the Inga dams,a major source of hydroelectricity in the Democratic Republic of the Congo. The Democratic Republic of the Congo was a net energy exporter in 2008. Most energy was consumed domestically in 2008. According to the IEA statistics the energy export was in 2008 small and less than from the Republic of Congo.

What is the Congo Energy Atlas?
This Atlas was created by the UNDP, Netherlands Development Organization SNV, and the Congolese Ministry of Water Resources and Electricity. It has 600 interactive maps and informs policymaking on decentralizing energy and encourages further renewable energy investments.

How much power does the Democratic Republic of the Congo have?
The Democratic Republic of the Congo has reserves of petroleum,natural gas,coal,and a potential hydroelectric power generating capacity of around 100,000 MW. The Inga Dam on the Congo River has the potential capacity to generate 40,000 to 45,000 MW of electric power,sufficient to supply the electricity needs of the whole Southern Africa region.

Kontaktieren Sie ZPA Smart Energy, den größten tschechischen Hersteller von Mess- und Regeltechnik. Dank des erworbenen Wissens, eines modernen Entwicklungszentrums und gewissenhafter Partner, die die Grundsätze unseres Unternehmens einhalten, sind wir in der Lage, Produkte nach den spezifischen Bedürfnissen unserer Kunden herzustellen.

Meter data security and communication channel security are becoming an absolutely key feature of modern smart meters. ZPA smart meters have the ability to run an asymmetric encryption mechanism on each communication channel, in which keys are generated using the elliptic curve method. This methodology is very robust.

ZPA Smart Meter ermöglichen die Messung und Aufzeichnung von Versorgungsnetz-Variablen, speichern diese Daten in beliebiger Granularität und übermitteln sie über eine Vielzahl von

Kommunikationsmodulen sowohl an den Netzbetreiber als auch an den Endkunden.

Smart metry ZPA jsou navrzeny podle svetových standardu, které definují komunikacní rozhraní pro distributora i tretí strany. Naprostým základem je parametrizacní infra rozhraní (DSMR P0) podle standardu IEC 62056-21, kterým jsou vybaveny vsechny elektromery naseho portfolia.
