Eagle solar Armenia

Is Solara a green energy company in Armenia?
THIS IS NOW! Solar photovoltaic installation company SOLARA has adopted a strategy to carry out activities in the field of the green economy in Armenia and promote its development. Why Choose Solara? There is a great potential for solar energy in Armenia.

Does Armenia need a solar power plant?
In 2019, the European Union announced plans to assist Armenia towards developing its solar power capacity. The initiative has supported the construction of a power plant with 4,000 solar panels located in Gladzor. Solar power potential in Armenia is 8 GW according to the Eurasian Development Bank.

Why do Armenians use solar energy?
The reason for this is that average solar radiation in Armenia is almost 1700 kWh/m 2 annually. One of the well-known utilization examples is the American University of Armenia (AUA) which uses it not only for electricity generation, but also for water heating. The Government of Armenia is promoting utilization of solar energy.

Are solar panels legal in Armenia?
Consumers are allowed to install solar panels with total power of up to 150 kW,and may sell any surplus to electricity distribution company Electric Networks of Armenia (ENA). In Armenia,solar thermal collectors,or water-heaters,are produced in standard sizes (1.38-4.12 square meters).

Who is Eagle solar?
Eagle Solar is an American solar companybased on 12 years of experience in the development of utility scale solar projects. Our ambition is to bring utility scale solar to all regions of the world. Today solar energy is the cheapest and fastest way to rapidly scale up the generation of electricity.

How much solar energy does Armenia produce a year?
According to the Ministry of Energy Infrastructures and Natural Resources of Armenia,Armenia has an average of about 1720 kilowatt hour(kWh) solar energy flow per square meter of horizontal surface annually and has a potential of 1000 MW power production.

The EAGLE ® G6 modules utilize our latest flagship TOPCon cell technology, featuring record breaking cell efficiencies of over 26%. EAGLE G6 ® TOPCon modules offer industry-leading power and efficiency, along with improved energy performance and reliability.
