Who is ecobat resources?

Ecobat Resources is the leader in the responsible recycling and production of resources essential to modern life. Backed by an international network of smelters,we are the world's largest producer of lead and lead alloys used in energy storage solutions and a range of other industrial and commercial applications.

Who are ecobat smelters?

Centuries of success. Though the Ecobat name first appeared in 1938 in Italy, some of our smelters were founded as early as the 14th century and continue to operate now, including Muldenhütten Recycling und Umwelttechnik GmbH (now Ecobat Resources Freiberg), the third largest lead smelter in Germany.

Does ecobat still produce lead?

IRVING,Texas,Aug. 31,2022/PRNewswire/-- Ecobat,the global leader in battery recycling,has announced that effective October 1,2022,Eco-Bat S.r.l. is suspending lead productionat its Paderno and Marcianise plants in Italy. These plants have an aggregate capacity of 80,000 metric tons of lead per year.

Does ecobat have smelters in Austria & Germany?

Meanwhile,it is understood that Ecobat has also put smelters in Austria and Germany under review-- after BESB revealed on September 29 that Ecobat was going ahead with the suspension of lead production at its plants in Italy,effective October 1,in the wake of "extreme energy prices and other excessively burdensome costs" in the country.
