# Eko energies Liechtenstein

What is energy in Liechtenstein?

Energy in Liechtenstein describes energy production,consumption and import in Liechtenstein. Liechtenstein has no domestic sources of fossil fuels and relies on imports of gas and fuels. The country is also a net importer of electricity.

Is Liechtenstein a solar power station?

Samina Power Station, currently the largest of the domestic power stations, has been operational since December 1949. In 2011-2015, it underwent a reconstruction that converted it into a pumped-storage hydroelectric power station. In recent decades, renewable energy efforts in Liechtenstein have also branched out into solar energy production.

How many hydroelectric power stations are there in Liechtenstein?

Liechtenstein has used hydroelectric power stations since the 1920s as its primary source of domestic energy production. By 2018,the country had 12 hydroelectric power stationsin operation (4 conventional/pumped-storage and 8 fresh water power stations). Hydroelectric power production accounted for roughly 18 - 19% of domestic needs.

What is Liechtenstein's national power company?

Liechtenstein's national power company is Liechtensteinische Kraftwerke(LKW,Liechtenstein Power Stations),which operates the country's existing power stations,maintains the electric grid and provides related services. In 2010,the country's domestic electricity production amounted to 80,105 MWh.

What percentage of Liechtenstein's electricity comes from non-renewable sources?

In 2016,non-renewable sources accounted for 67,35 %and renewable sources for 32,47 % of Liechtenstein's electricity supply. Energy production from non-renewables consisted of 56,88 % foreign imports of electricity produced by nuclear power,and 0,65 % of electricity produced in Liechtenstein from imported natural gas.

What is the oldest power station in Liechtenstein?

Lawena Power Stationis the oldest in the country,opened in 1927. The power station underwent reconstructions in 1946 and 1987. Today,it also includes a small museum on the history of electricity production in Liechtenstein. Samina Power Station,currently the largest of the domestic power stations,has been operational since December 1949.

EKO energies was approached to support and supervise the completion of the civil works since the milestones and the execution were not being met and cost overrun was a major problem. Thus our team was quickly mobilized as Civil Client Representatives and successfully accelerated and completed the remaining works within a short period of time.
