Elion solar Macao

Can Macao increase solar energy?
The Macao government also sees an opportunity to increase solar energy. To encourage the installation of PV systems,officials passed a set of safety and installation regulations in 2015.

Does Macao have a photovoltaic energy contract?
The regulations require investors to enter into a 20-year contract for the purchase of photovoltaic energy with Macao's sole energy service provider,Companhia de Electricidade de Macau(CEM). Essentially CEM will purchase the electricity produced to ensure investors profit within a reasonable period.

Is solar energy efficient in Macau?
However,in the view of Macau-based scholar Wai Ming To,interviewed later in this special report,"Macau is a small city and has many high-rise buildings. Thus,solar energy is not efficientdue to the shadowing effect of adjacent buildings and the small ratio of rooftop area to total floor area.

How many photovoltaic interconnections have been completed in Macao?
In response to a written inquiry from Macao News,the Environmental Bureau said that only five photovoltaic interconnectionswere completed by the end of March 2021. Meanwhile,the bureau received about 25 inquiries from local schools,industrial and commercial buildings and public utilities.

Why is Elion solar not getting CCER?
Notably,the four-year-old Elion solar power installation hasn't received the CCERs from the government because the National Development and Reform Commission suspended its CCER registryin March 2017 to revise the standards.

How to turn Macau Green?
In a research on how to turn Macau green,the academic add that"Increasing the proportion of renewable energyis critical for creating a sustainable,energy-efficient city. Renewable energy development,in fact,is considered the key to solving the energy and environmental crises."
