Emc centera storage Belize

Why should you use EMC Centera?
EMC Centera offers efficient storage utilizationdue to its unique content-derived addresses,which permit only one protected copy of content to be stored,even if it is used multiple times. This significantly reduces the cost of storing and managing content.

Does EMC Centera use a file system?
EMC Centera does not use a file system for storing content. With no RAID types to choose,LUNs to bind,or file systems to create,applications are released from the requirement to compensate for or manage the complexity of traditional storage topologies.

Why should you choose Centera vs content addressed storage?
Centera is ideally suited for simple, scalable, and secure storage and retrieval of this tidal wave of fixed content information. Content Addressed Storage offers a significant new approach to managing information, perfectly suited to the needs of fixed content.
