Caribbean Renewable Energy Fund - Saint Vincent & the Grenadines Overview The project sets a strong precedent for using renewable energy to drive down energy costs on the outer islands.

Energy Action Plan for St. Vincent and the Grenadines - First Edition 6 II. Current Situation 2.1 Fuel imports and energy costs Saint Vincent and the Grenadines (SVG) has a population of 100,272 (2006 estimate)1 inhabitants, with approximately 92,000 of those living on the main island, St. Vincent.

The Grenadines was also affected, as the lack of rainfall and very warm temperatures had all but dried up the limited supplies stored on the islands. On many occasions, water had to be taken by ferry, trucked, and then distributed on the islands. This further added strain to the already limited supply on the island of St. Vincent.
