Energy Well is a patented small modular reactor developed by the Research Center Rez. The project uses the latest knowledge in the field of salt smelting technologies that come from the Czech Republic, thanks to grants from the Ministry of Industry and Trade.

Slovenia: Many of us want an overview of how much energy our country consumes, where it comes from, and if we"re making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic. Our World in Data. Browse by topic. Latest; Resources.

Slovenia Coal Consumption. Following a downward trend since 2016, lignite consumption dipped by 9% in 2021 and by 18% in 2022 to 2.6 Mt. Previously, it had eroded between 2002 and 2012 (by 1.2%/year), before collapsing in 2013 and 2014 (-15%/year) due to much lower demand from the power sector, the main consumer of lignite (98% in 2022).
