What is the Ethiopian socioeconomic survey?
The Ethiopian Socioeconomic Survey (ESS) is a collaborative project between the Central Statistics Agency of Ethiopia (CSA) and the World Bank. ESS is one of the multitopic household survey programs implemented in eight countries for the Living Standards Measurement Study--Integrated Surveys on Agriculture (LSMS-ISA) project.

What is the Ethiopian Economic Survey (ESS)?
The ESS is designed to generate a comprehensive analysis of the income, well-being, and socioeconomic characteristics of households in Ethiopia. The survey covers a nationally representative sample of over 6,700 households living in both rural and urban areas. The sample is also regionally representative.

When did the Ethiopia rural socioeconomic Survey (ESS) start?
The first wave was implemented in 2011-12,the second wave in 2013-14,and the third wave in 2015-16. The first wave (originally referred to as the Ethiopia Rural Socioeconomic Survey [ERSS],but since retitled ESS1),covered only rural and small-town areas1. The second and the third waves,ESS2 and ESS3,added samples from large town areas2.

What is the European Social Survey (ESS)?
The European Social Survey (ESS) is a pan-European research infrastructure providing freely accessible data for academics, policymakers, civil society and the wider public. CRONOS (CROss-National Online Survey) - establishing the first cross-national probability-based input-harmonised web panel.
