Finland battery solution international ltd

Who is BSI - battery solutions International Ltd?
Welcome to BSI - Battery Solutions International Ltd, Where we address the costly and environmentally harmful issue of electric batteries.

Does Finland have a national battery strategy?
As demand for batteries increases,the need to find solutions is urgent. Business Finland has granted the BATCircle 2.0 consortium with 10.8 million euros Business Finland's recent release on Finland's national battery strategy,featuring the research of life-cycle assessment of battery recycling,attracted a lot of international coverage.

What makes Finland a good battery company?
Finland has expertise throughout the battery value chain,from the mining industry and processing of raw materials to technologies and services related to the manufacture and use of batteries,as well as charging technologies and recycling.

Does Finland have lithium ion batteries?
Finland is one of the few European countries where the ground contains all the key minerals needed to make lithium-ion batteries: cobalt, nickel, lithium and graphite.

Why is Finland partnering with the European battery industry?
One of the key elements of a sustainable and competitive battery ecosystem is recyclingand Finland has been chosen to coordinate the European battery industry's research on the topic. The planned pCAM and CAM factories would generate thousands of jobs in the Kymenlaakso region,enough to drain local supply of workforce.

Who is BSI Balkans Ltd?
With this reference "Euromarket Karry"J.S.Co recommends "BSI Balkans" ltd as a competent and reliable partner for renovation, diagnosis and post-warranty maintenance of lead-acid batteries. Start a Sustainable Franchise with Us: Join Our Global Network! Fill out the form, and let's get started!
