Gibraltar abba energy

What is the Gibraltar Electricity Authority?
Gibraltar Electricity Authority is an agency under the Government of Gibraltar responsible for regulating the Gibraltar electricity market. The authority was created on 28 March 2003 under the Gibraltar Electricity Authority Act 2003. Its responsibility is to generate, distribute and supply electricity to the civilian population of Gibraltar.

Does Gibraltar have electricity?
Until recently, Gibraltar's electricity supply was dependent on some 40 diesel-powered engines and turbines distributed across Gibraltar. In 2019 a new, modern power station situated at the North Mole commenced operation running long term on liquid natural gas (LNG).

Why does Gibraltar need a new power plant?
This secures Gibraltar's energy supply economically, environmentally and sustainably. The associated closure of the three old plants represents the largest measure taken to improve air quality and reduce greenhouse gas emissions. The new power plant consists of six engines; 3 of which run on natural gas and 3 of which are dual fuel.

When did electric lighting start in Gibraltar?
On 15 September 1896,construction of the King's Bastion Power Station,based in the old King's Bastion,was started with the help of a loan raised under the Electric Light Ordinance of 1892. The first demonstration of electric lighting in Gibraltar was conducted in April 1897. The Electric Light department was established on 9 March 1898.
