Welcome to GlobalENCO. We"re glad you"re here. For more years, we"ve been a leader in global infrastructure solutions with a focus on planning, design, technology, and construction management services for a diverse array of markets and disciplines.

GlobalENCO has gained an international reputation for its technology and construction capability, consolidating its position locally and abroad by participating in various infrastructure projects, including electrical and FO submarine cabling, OPGW wire projects, compression and transport of natural gas, and other mid to megaprojects.

The Gibraltar TL4 four cable High Tension Cable Barrier (HTCB) system is MASH16 approved on level terrain up to 4:1 slopes. This unique cable system design allows the top two cables to alternate within the top loop of the hair-pin which effectively slows and re-directs vehicles that leave the highway.
