Greece stuart energy

Does Greece need a smart meter?

Greece's target to shift from lignite towards renewable energy sources further propel such efforts. There is a lot of work to be done, given the lack of investment, which has led to a lack of smart meter penetration. Only 200,000 customers out of the 8 million being served by Greek grid operator HEDNO currently have smart meters.

Who is Stuart EV charging?

Stuart provides EV charging solutions and integrated services for workplaces, residential, municipalities, shops, and hotel customers. STUART is a state-of-the-art solution for everyone who wants to cut electricity bills and go green while having a hassle-free experience.

Will Greece become a net exporter of energy?

There are multiple high profile electricity interconnector projects in discussion,with two aiming to connect Greece with Egypt for the purpose of exporting renewable energy into Greece and beyond. As Greece further develops these projects,it positions itself to become a net exporter of energy in the region.
