Arctic Renewable Energy is a solar power development company based in Pello, Finland, whose mission is to develop industrial-class solar parks in Arctic regions and especially in western Lapland, which benefits from an excellent microclimate. The company"s first solar park, ARE Park Pello One, is scheduled for completion in 2026.

The main technical challenges in Finland are related to intermittency of available solar energy (day-night and summer-winter cycles), particularly in the Arctic region. The share of solar power capacity in Finland grew by over 60 percent in 2022, but the share is still a modest proportion of the nation"s total power generation. Opportunities

Orsted is a Denmark-based Renewable Energy company that takes achievable action to create a world that runs entirely on Green Energy. Its vision is to create a world of Green Energy. The company develops, constructs, and operates offshore and onshore wind farms and also solar farms, energy storage facilities, bioenergy plants.
