Committed to Impartiality, Confidentiality, and Independence. As an ISO/IEC17020:2012 accredited company, we are organized to conduct our activities with fairness, independence, and without bias.

Solar. The solar panels on your roof or some other structure such as carport produce electricity in what is referred to as Direct Current (DC). The appliances in your house, however, run on what is known at Alternating Current (AC). So in order to connect the DC from the solar panels to the house AC you at some point have to convert DC to AC.
