Grenada nibe energy systems

How can Nibe help you build a more sustainable future?
NIBE combine renewable energy with smart technologyin order to offer effective solutions so that together we can build a more sustainable future. Our wide range of products supplies your home with heating,ventilation,hot water and cooling,creating a perfect indoor climate with a low impact on nature.

Who is Nibe?
It all started in Markaryd in Sweden and we value our Nordic heritage by harnessing the power of nature. NIBE combine renewable energy with smart technology in order to offer effective solutions so that together we can build a more sustainable future.

How can Nibe improve indoor climate comfort?
The entire indoor climate comfort system can be automated and controlled remotely using NIBE's sustainable digital solutions. Heat pumps save energy even when idle,and the units have active cooling modules that produce excellent air conditioning. High demand for energy efficiency in public buildings

How many business areas does Nibe have?
The company has threedifferent business areas: NIBE Climate Solutions manufactures intelligent,energy-efficient indoor comfort solutions for all types of properties. NIBE Element manufactures components and solutions for intelligent heating and control for industry and infrastructure.

Why are Nibe heat pumps important?
This helps promote the transition from fossil fuel to renewable energy production, which is required to safeguard the future energy supply. We have estimated that all the NIBE Group heat pumps sold and installed in 2019 correspond to generation of 1.35 TWh of renewable energy.

Is Nibe a listed company?
NIBE has been listed on Nasdaq Stockholm's Large Cap listunder the name NIBE Industrier since 1997,and has had a secondary listing on SIX Swiss Exchange since 2011. The company has three different business areas: NIBE Climate Solutions manufactures intelligent,energy-efficient indoor comfort solutions for all types of properties.
