Guadeloupe oolu energy

Where can I find information about Guadeloupe energy?
Welcome to the website of Guadeloupe Energie! On this website, you'll find information on Guadeloupe's progress on energy transition from energy legislation to industry data, from profiles for renewable energy in Guadeloupe to the latest news and events--all in one place.

How much does energy cost in Guadeloupe?
Energy Snapshot Guadeloupe This profile provides a snapshot of the energy landscape of Guadeloupe,an overseas region of France located in the eastern Caribbean Sea. Guadeloupe's utility rates are approximately $0.18 U.S. dollars (USD) per kilowatt-hour (kWh),below the Caribbean regional average of $0.33 USD/kWh.

How can Guadeloupe achieve energy independence?
"Achieving energy independence in Guadeloupe byshifting from fossil fuels to renewable energy sourcesis a challenge that we must take up for the benefit of future generations. With clear objectives and applying the means for success,the Multi-Year Energy Program (PPE) exemplifies our political resolve to reach our goals."

Does Guadeloupe rely on imported fuels?
Nevertheless,Guadeloupe's reliance on imported fossil fuels--more than half of the island's electricity is generated from imported petroleum-based fuels--leaves it vulnerable to significant disruptions in shipping or the availability of import facilities.
