Guinea-Bissau hybride solarzellen

How much does Guinea-Bissau's solar project cost?
The entire solar and hybrid project is being financed to the tune of $42.9 millionby the Government of Guinea-Bissau with a loan from the West African Development Bank (BOAD). This financing was granted as early as 2017.

Who is backing Guinea-Bissau's solar project?
The West African Development Bankis backing the project with a $42.9 million loan. Guinea-Bissau relies on fossil fuels and solar has seen limited development,with the exception of rural electrification initiatives. The nation has one of the lowest electrification rates in Africa,as well as electricity prices among the highest on the continent.

Where is a solar power plant being built in Bissau?
The first is a photovoltaic solar power plant to be built in Gardete,a town located 8 kilometres from the capital Bissau. The facility will have a capacity of 20 MWp. It will have a battery storage system to provide electricity to the inhabitants of Bissau and surrounding areas after sunset.

Who will build Guinea-Bissau's first PV plant?
The African Biofuel and Renewable Energy Co (Abrec),which promotes renewables and energy efficiency across the continent,has awarded the contract to build Guinea-Bissau's first large scale PV plant to state-owned Chinese hydropower business Sinohydro.

How much energy does Guinea-Bissau use?
As a result, around 95% of the energy consumed in Guinea-Bissauan households comes from biomass. The African Development Bank recently stated Guinea-Bissau has only 11 MW of installed power generation capacity, almost all of it thermal generation.
