Honduras enlight energy services

Does the Inter-American Development Bank support energy projects in Honduras?
Currently, the Inter-American Development Bank is contributing funds and assistance to the following projects in the energy sector in Honduras: An Energy Sector Support Loan supported through a US$29 million credit approved in September 2008. This project will finance priority investments in transmission and support a program for reducing losses.

What type of power plugs are used in Honduras?
In Honduras the residential power plugs and sockets are of type A and B. The standard voltage is 120 V and the standard frequency is 60 Hz. In Honduras,there is great potential in untapped indigenous renewable energy resources. Due to the likely long-term trend of high oil prices,such resources could be developed at competitive prices.

How many small hydropower projects are there in Honduras?
According to its promoter,Finnder,the small hydropower project Rio Blanco (50 MW) was the first small Clean Development Mechanism (CDM) registered in the World,with the first Certified Emission Reductions awarded in October 2005. Currently,there are elevenCDM-registered projects related to electricity generation in Honduras.
