Who are the biggest investors in Indonesia's energy sector?
The biggest foreign investors in Indonesia's energy sector,especially in electricity,have been those from China,Japan,and South Korea(CJK). These three East Asian countries are the biggest backers of CFPPs in Indonesia and the world.

Does Indonesia have a battery energy storage system?
To work around this, electricity can be generated during the country's windy or sunny periods, and the excess can be stored for use in latent periods. Indonesia is currently building on its storage capacity through the planned/ongoing installation of 5 MW battery energy storage systems (BESS), linked to PLN's renewable sites.

What is Indonesia doing with its energy storage capacity?
Indonesia is currently building on its storage capacity through the planned/ongoing installation of 5 MW battery energy storage systems (BESS), linked to PLN's renewable sites. Indonesia is also building its first utility-scale integrated solar and energy storage project in Nusantara.

Should renewables be installed in Indonesia?
Indonesia already has fossil fuel power generation assets. If renewables are installed at scale, the profitability of those existing assets decreases. Furthermore, the age of the assets influences the amount that would need to be written off against how much more the asset might otherwise have produced.
