The conflict in the Eastern Democratic Republic of Congo (DRC) is considered the deadliest conflict the world has faced since World War II. By using materials or minerals in the products we design and consume that originate in the Eastern Congo, we personally and corporately contributing to the devastation and carnage of an entire region ...

minerals that are mined in the Democratic Republic of the Congo and used in large quantities in the manufacture of electronic equipment. Collectively, these regulations create new and challenging issues for equipment manufacturers. In an article on the RoHS Directive, we address recent changes to the Directive that add
