Inverter company in lagos Turks and Caicos Islands

What is an off-grid solar inverter?
An off-grid solar inverter is also called a stand-alone inverteror a solar battery inverter. It connects to a battery bank where the excess solar energy from the solar panels is stored. When there is no sunlight or during power outages,the off-grid solar inverter uses the battery bank to provide power to the house.

Does an on-grid solar inverter have anti-islanding protection?
An on-grid solar inverter is equipped with an extra safety measure known as Anti-Islanding Protection. This feature enables the inverter to discontinue the power supply from the home's solar panel system in the event of an electrical arc.

What is a hybrid solar inverter?
As a leading inverter company in Lagos,we deal primary on hybrid inverters. A hybrid solar inverter is the kind of inverter that integrates both on-grid and off-grid solar functions. It can provide AC power to your home by converting DC power from the solar panels Export surplus power to the grid.
