Ireland energy vault company

What is Energy Vault?

Energy Vault is a global energy storage companyspecializing in gravity and kinetic energy based,long-duration energy storage products. Energy Vault's primary product is a gravity battery to store energy by stacking heavy blocks made of composite material into a structure,capturing potential energy in the elevation gain of the blocks.

What is Energy Vault ® partnership?

Energy Vault ® partnership programs are designed to enhance sustainable production designand to encourage global deployment of Energy Vault Solutions(TM). Energy Vault creates gravity and kinetic based energy storage solutions that are transforming how the world delivers reliable and sustainable electricity.

How did Energy Vault get funding?

In 2019,Energy Vault secured funding from Cemexbefore going on to secure $110m of Series B funding to become the first energy storage investment of the SoftBank Vision Fund,and won Fast Company's World Changing Idea Award for transformative utility-scale energy storage.

Who owns Energy Vault?

In 2020, Energy Vault was Named Technology Pioneer by World Economic Forum and completed the mechanical construction of the first of its kind, grid-scale testing tower in Castione-Arbedo, Ticino, Switzerland. In 2021, Energy Vault announced investments from Saudi Aramco Energy, and other existing investors.

Why should you choose Energy Vault?

With our vast global network in leadership, management, and contribution, Energy Vault is well positioned to meet the large and currently unmet demand for sustainable and economical energy storage for renewable energy generation worldwide.

Why did PG&E choose Energy Vault?

Utility PG&E separately chose Energy Vault to provide clean backup powerfor the town of Calistoga when wildfire risks prompt power shutoffs. The assignment was to provide at least two days' worth of power without the broader grid,and at a lower price than trucking in mobile diesel generators.
