Italy"s solar installed capacity reached 3.5GW from January to September The latest statistical data from

Italy bluesunpv com

Italian energy agency Gestore dei Servizi Energetici (GSE) shows that Italy added approximately 3.5 GW of photovoltaic power generation capacity through approximately 280000 systems in the first nine months of this year.

The survey shows that by the end of March this year, the cumulative installed capacity of photovoltaic systems in Italy has reached more than 23GW. The country"s comprehensive ...
