Jersey tomorrow solar

Will Jersey's 'island plan' boost energy security?
Bosses said the plans for the 2.7 hectare site,meant electricity would be returned to the grid in a process which would "increase Jersey's energy security". The firm said the proposal - which is one of several sites it hopes to build by 2026 - supported the government's Island Plan and energy policy.

Does Jersey electricity want to protect green space?
Steve Tanner,head of capital delivery for Jersey Electricity (JE),said the company wanted to "protect green space on the island"and "the total of all six sites is only 0.8% of the total agricultural land available". Ms Layzell said: "These fields in St Mary are in the top 50% of land for Jersey Royals.

Will a ground-based solar installation at Mont Fondon increase Jersey's energy security?
Jersey Electricity (JE) is inviting St Peter parishioners to attend a consultation for a ground-based solar installation at Mont Fondon. Bosses said the plans for the 2.7 hectare site,meant electricity would be returned to the grid in a process which would "increase Jersey's energy security".

Will St Clement & St John 'build Jersey's energy sovereignty?
Referencing a ground-mount solar installation in St Clement due to produce renewable energy in 2025,and a second project in St John,he said they were taking positive steps to "build Jersey's energy sovereignty,diversifying our energy sources and promoting the local economy".
