# Laksh solar Tonga

Why do we need solar power in Tonga?
Renewables like solar are a significant means for Tonga to expand energy access,stabilize power grids as well as reduce pollution. Considering the shortage of solar expertise and finances for countries like Togan,the role of independent power producers and the practice of PPA provide solid support to smooth the way for solar deployment.

Who are Sunergise New Zealand & Tonga Power Limited?
This solar project was completed under the partnership between Sunergise New Zealand Limited and Tonga Power Limited with support from the Asian Development Bank (ADB). Sunergise led the construction and meanwhile united local Tongan civil, mechanical and electrical sub-contractors to the team.

What does Sunergise's 6MW solar system mean for Tonga?
As Hu'akavameiliku,Prime Minister of Tonga said at the ceremony: "The successful completion of the Sunergise's 6MW Independent Power Producersolar generation system today,demonstrates the major role renewable energy independent power producers play towards achieving our 70% target by [the]end of [the]year 2025."

Where is Tongatapu solar farm located?
Prime Minister of Tonga today announced the official launch of the 6-MW power purchase agreement (PPA) based Tongatapu Solar Farm located at Fualu,Tongatapu,which has supplied electricity to over 10,336 households since August this year.

Does Tonga use fossil fuels?
Statistics show that, as of 2020, nearly all electricity in Tonga came from fossil fuels. As an island country with a total surface area of merely 290 sq mi, Tongan's power generation heavily relies on imported fossil fuels.

Incorporated in the year 2014 at Vadodara (Gujarat, India) We "Laksh Solar" are a Sole Proprietorship firm, engaged in trading premium quality range of Solar Street Light, Solar Panels, Solax Power Inverter and Solar Rooftop System. We sell these products under the brand name "APS, SOLAX" These products are widely demanded by for their long working life, less ...

PV System PV System Save more money with net metering. Your solar panels will often generate more electricity than what you are capable of consuming. With net metering, homeowners can put this excess electricity onto the utility grid instead of storing it themselves with batteries. The utility grid is a virtual battery. The electric power
