Malaysia modula storage

Where are Modula storage systems manufactured?
Modula storage systems are made in the USAas an authorized dealer of Bradford Systems. They use the most advanced Vertical Lift Module (VLM) and vertical lift technology in the industry.

What is a Modula lift?
Available in a wide range of sizes and capacities, Modula Lift is the ideal storage solution for industrial products, components and spare parts for all possible environments and industries. With a throughput of up to 130 trays per hour and a tray payload capacity of up to 2,200 lbs, it's a workhorse of a machine.

Why should you choose Modula?
Modula has more than 30 years of experience designing and producing automated vertical warehouses. With four manufacturing centers worldwide,we deliver consistent,high-quality products. Regardless of your industry or your warehouse's complexity,Modula always has an appropriate solution for you. Modula Storage and Picking Solutions

Who is Modula?
In 1987, Modula developed the first vertical lift module in its Italian factory, and since then, we have been favored by over 20,000 customers in various business sectors, not only successfully revolutionizing their warehouse management. We have also brought their working environment to a new ergonomic level.

With a modern vertical storage warehouse, such as Modula Vertical lift modules, requested items are brought directly to the operator. From the smallest part to the heaviest item, everything is presented at an ergonomic working height. This saves human energy and drastically lowers the risk of personal injury.
