Mane solar Guernsey

The Little Green Energy Company have just installed 309 roof mounted solar panels with Guernsey Electricity Limited on the power station, Northside, Vale, creating the largest solar array in the Channel Islands, generating over 100kWp of power.

We recently installed this 19 panel Solar PV System in the Vale, alongside a Tesla Powerwall 2. Located in Guernsey, Jersey, Alderney, Sark or Herm & interested in clean energy?

Guernsey has already started on-island renewable generation with community-scale solar arrays feeding over 350kW of renewable solar power into the grid. This means that no matter your property size, a portion of your electricity will always come from on-island solar energy. And more will come in future.

It"s not just in sunny weather that Solar PV works for you, in all conditions our SunPower panels are designed to work. Contact us today, to discuss how we can help you build your own ...

Every solar panel we install, every watt of clean energy harnessed--it"s a step toward a zero carbon world. From our initial consultation to the final installation, every step of our process is ...

The UK experienced 1,435 hours of sunshine in 2023, compared to 1,814 in Guernsey according to data from the Met Office. Little Green - a local energy provider - said this equates to Guernsey having 14 .3% more potential for solar power than the UK.

Mane solar Guernsey

Solar electricity panels, also known as photovoltaics (PV), capture the sun"s energy and convert it into electricity that you can use in your home. You"ll need a more or less south-facing, unshaded roof or garden area. You"ll then need to think about your current electricity demand and what size of system you might need.

How low can you go? One panel. 300 watts output, simply plug the microinverter into the mains socket. We supply a "VZPV" (Very Easy PV) package that does just that and includes all the paperwork to Guernsey Electricity. Visit our projects page to see our past installations.

In 2023 Guernsey Electricity worked in conjunction with The Little Green Energy Company to install the vast community-scale solar array at Grow Limited"s newly redeveloped headquarters. The 310 photovoltaic (PV) panels will produce 129-kilowatt peak power (kWp). That"s enough electricity to supply power to approximately 35 homes.

Every solar panel we install, every watt of clean energy harnessed--it"s a step toward a zero carbon world. From our initial consultation to the final installation, every step of our process is guided by:

Efficient and environmentally friendly, the use of solar PV or solar panels in Guernsey is on the up. A fantastic investment, they are a great way to reduce your carbon footprint and make your ...

Efficient and environmentally friendly, the use of solar PV or solar panels in Guernsey is on the up. A fantastic investment, they are a great way to reduce your carbon footprint and make your home or property more energy efficient and eco-friendly, whilst also offering a greater financial return than savings in the bank.
