What is a Bess policy?

Such national and regional level BESS policies incentivize utilities, power generators, and private sectors to actively invest in and install BESS to support PICs greenhouse gas emissions reduction and renewable energy expansion targets.

What policy measures support Bess development?

Policy measures that support BESS development can be direct or indirect. Direct policy measures including BESS mandate, investment tax credits, and tax reduction or exemption for BESS projects directly incentivize private sectors to engage in BESS roll-out. Indirect measures are typically energy policies that reward increased RE usage.

How can government policy shape the future of Bess deployment?

Government policy surrounding BESS deployment has the potential to shape the future landscape of this situation, particularly by drawing on technical expertise, creating an attractive investment environment, and coordinating stakeholders to create multiplier effects.
