Modula storage Ethiopia

Why should you choose Modula automatic vertical storage solutions?
Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency. The automatic vertical tray warehouses were designed according to the "goods-to-man" principle: there is no need for operators to move around the warehouse to pick or refill your goods.

What is a Modula automated warehouse?
Modula automated warehouses,combined with our warehouse management systems,are the ideal response to companies' storage and picking requirements,regardless of the industry sector or the type of item to be stored.

What is a Modula automatic vertical tray warehouse?
Modula automatic vertical tray warehouses allow you to store goods in an clean,tidy,safe and fast-moving system,reducing the number of movements operators need to make and avoiding damage to your goods. Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency.

What is a modular vertical storage solution?
Created to make the most of available vertical space and save floor space at the same time,Modula automated vertical storage solutionsare suited to any type of product,in any industry sector or environment,and can be customised to various payloads,heights,sizes and options.

What types of storage options does Modula offer?
Internal and external bays, with single or dual delivery levels, displaced bays, with standard or oversize unit heights. Modula offers a unique range of configurations, so you can choose the ideal type of product for each kind of storage and see which one best suits your needs for space, picking and refilling.

Why should you use Modula?
Modula's American-made automated storage and retrieval systems transform your material handling - dramatically boosting productivity and accuracy, reducing storage space requirements, and enhancing worker safety and job satisfaction.

Today, Modula has more than 20,000 customers around the world with plants in the United States, Italy, and China. ... Key Benefits of AutomationTransform your operations with Modula"s solutions Automated storage solutions boost productivity and accuracy, increase storage capacity, and enhance worker safetyDiscover all benefits;

Modula Next. Modula Next is an innovative automated storage and retrieval solution, that combines the space-saving and efficiency of Vertical Lift Modules (VLMs) with all the precision and control of industrial vending machines.. When an item is requested, the unit retrieves the specific tray where the item is stored and

brings it to the picking bay at an ergonomic height.

Energostar optimizes Heavy Industrial Equipment Storage with 2 VLMS Case Study Summary. Energostar, a leading company in the Baltic states for the assembly and sales of heavy industrial equipment, faced challenges related to ...

Modula, automatic warehouses since 1987 The company designs and manufactures vertical lift modules, picking solutions and WMS software for companies of all sizes, from every industry. ...

Modula dealers are proud to offer the most advanced storage solutions in the industry and they"re delighted to see them do the job their customers expected of them. For them, their customers" business becomes their business.

Products. Key Benefits of AutomationTransform your operations with Modula"s solutions Automated storage solutions boost productivity and accuracy, increase storage capacity, and enhance worker safetyDiscover all benefits; Key Benefits of Automation; Vertical Lift Modules. Modula Lift Our most popular VLM model; Modula Slim For areas with smaller footprint ...

By automating storage and retrieval processes, Modula"s systems can significantly increase the speed of operations, allowing companies to process orders faster and more reliably. ...

Modula is a leading manufacturer of automated storage solutions, designed to optimize space and improve picking and storage operations for any industrial sector or environment. Our vertical lift module (VLM) line maximizes the storage potential of high-ceiling facilities, securing items in enclosed units up to 54 feet tall.

Modula Pallet. The Modula Pallet is an innovative warehouse solution designed to safely handle euro pallets (1,200mm X 800mm) directly from the ground, eliminating the need for forklifts.. This system keeps pallet movements at ground level, optimizing vertical space and reducing the risks linked to lifting and storing at height.

Modula is a leading manufacturer of automated storage solutions, designed to optimize space and improve picking and storage operations for any industrial sector or environment. Our vertical lift module (VLM) line maximizes the ...

The Home Appliance Industry or Consumer Appliance Industry, covers the production and distribution of electrical and mechanical devices designed for use in homes.The range of products extends from large appliances like refrigerators and washers to smaller items like blenders and vacuum cleaners. The nature of the products and the global scale of operations present ...

Eutron Kunshan Boosts PCB Manufacturing Efficiency with Modula VLMs Case Study Summary. Eutron Kunshan, a printed circuit board manufacturer, faced significant space and efficiency challenges in their

warehouse integrating Modula vertical lift modules in 2014, they saved time, improved operational efficiency, and maintained optimal storage conditions for electronic ...

The product models include automated vertical storage solutions, automated horizontal storage solutions, automated storage solutions for temperature-controlled environments, picking solutions ideal to optimise order preparation ...

With a modern vertical storage warehouse, such as Modula Vertical lift modules, requested items are brought directly to the operator. From the smallest part to the heaviest item, everything is presented at an ergonomic working height. This saves human energy and drastically lowers the risk of personal injury.

Modula automatic vertical tray warehouses allow you to store goods in an clean, tidy, safe and fast-moving system, reducing the number of movements operators need to make and avoiding ...

Digbits Increases Parts Storage and Recovers Floor Space. Excavator parts firm scoops out 90% storage space savings with VLMs. Problem. Digbits was running out of space and potentially needed to add another mezzanine floor to accommodate all of its parts.

Reduce the Risk of Injuries: By eliminating the stress and strain of reaching high and low, Modula VLMs help employees stay safe on the job. Improve Efficiency and Save Time: Workers aren"t scrambling around a huge warehouse trying to locate items - they just retrieve what they need from a small number of VLM stations. Ease Operational Effort with the Copilot Console: The ...

Apex Tools & Orthopedics Enhances Efficiency and Expands Storage Capacity with Modula Lifts Case Study Summary. Apex Tools & Orthopedics, a member of the Colson Medical Group and a subsidiary of the Marmon Group under Berkshire Hathaway, is a global leader in surgical instrument design and manufacturing.Their factory, based in Guangzhou, sought to optimize ...

Laser pointer Point out exact item location within a tray. This is a laser pointer on 2 axes for identifying item locations within a tray. The item to be picked is displayed by the intersection of two points: a red holographic laser line shows where it lies on the X axis (the width of the tray) while a green laser line identifies its location on the Y axis (depth) of the tray.

Using Modula WMS, an operator creates a batch of orders and fill them all at one time.When the HC presents an SKU for picking, the operator picks the total SKU quantity for all orders. The batch picking lights, located at each order position, direct the picker to the correct location and indicate the quantity that needs to be placed in each order. By using batch picking, the operator only ...

Modula manufactures automated picking and storage solutions designed to optimize space, as well as improve picking and storage operations. Modula"s US manufacturing plant, located in Lewiston, ME, is equipped with the latest in automation, from laser cutting and welding to automated punches, brakes, and presses.
