An uninterruptible power supply (UPS), also known as a battery backup, provides backup power when your regular power source fails or voltage drops to an unacceptable level. A UPS allows for the safe, orderly shutdown of a computer and connected equipment. The size and design of a UPS determine how long it will supply power.

Empower Your Life With Okaya"s Solar Power OKAYA Solar inverters make powering your home with solar energy possible. They are hybrid that can use both grid and solar mood.
