Last month, I had the privilege of helping to install a small, off-grid solar system in Nepal. The microgrid installation was located a day"s drive into the Himalayas outside of Kathmandu. As we drove to the site location, I saw less and fewer lights until I saw the literal end of the electrical grid...and then we kept driving into the mountains.

These solar modules come in 12 volt DC which is a great way to charge a 12 volt battery. Even some home lighting systems are designed specifically to work with these small size solar panels..
