Nexus energy solutions Congo Republic

Who is Nexus energy systems?
Nexus Energy Systems isn't just a solar company,our roots go back to custom home building through Rietkerk Construction,founded in 1978. When we adopted solar into our product lineup in 2008,we had one clear advantage over our competitors that has stood the test of time - EXPERIENCE THAT MATTERS.

How many people have electricity in the Democratic Republic of Congo?
Goma hybrid solar project in the Democratic Republic of Congo According to the World Bank,only 19%of the DRC's around 102 million people have access to electricity. This translates to about 41% in urban areas and 1% in rural areas.

Why do Congolese people need electricity?
According to the International Trade Administration, lack of access to modern electricity services impairs the health, education and income-generating potential of millions of Congolese people. "Most power generation development is directed and funded by mining companies seeking to power their facilities."
